STACK

(Meters represent relative experience)

EDUCATION

Palomar College

Interactive Media Design

Emphasis in Multimedia Design

2012 - 2014

Tenacity and constant research

I am never done learning!

1994 - Forever

WORK HISTORY

2011 - 2014

Packaging Designer THAC LLC

Used Photoshop to create official DVD & Blu-ray cover art for *Marble Hornets*, a YouTube series with nearly 500k subscribers

2013 - 2015

Web Developer & Graphic Designer Freelance

Created custom graphics and websites for a variety of clients. Built custom themes for WordPress, Xenforo, and Buycraft. Expanded my knowledge of front-end code through proactivity.

2015

Front-end Developer Social Company

Created custom UI/UX elements using HTML, CSS, and JavaScript. Contributed to the front-end of a large Python-based restaurant website with parallax scrolling, custom ingredient selectors, etc.

2016 - Now

Lead Front-end Developer KMG Software

Create custom UI/UX elements using HTML, CSS, and JavaScript. Assist in building and maintaining web-based admin UIs for companies such as Shared Medical and Bruker. Developed and currently maintain a WooCommerce-based fine art print store.
